J-CONCEPTS BJ4 SET-UP SHEET:

DRIVER: Greg Hodapp

DATE: July 2004

TRACK/CITY: New Mexico

EVENT: ROAR Nationals

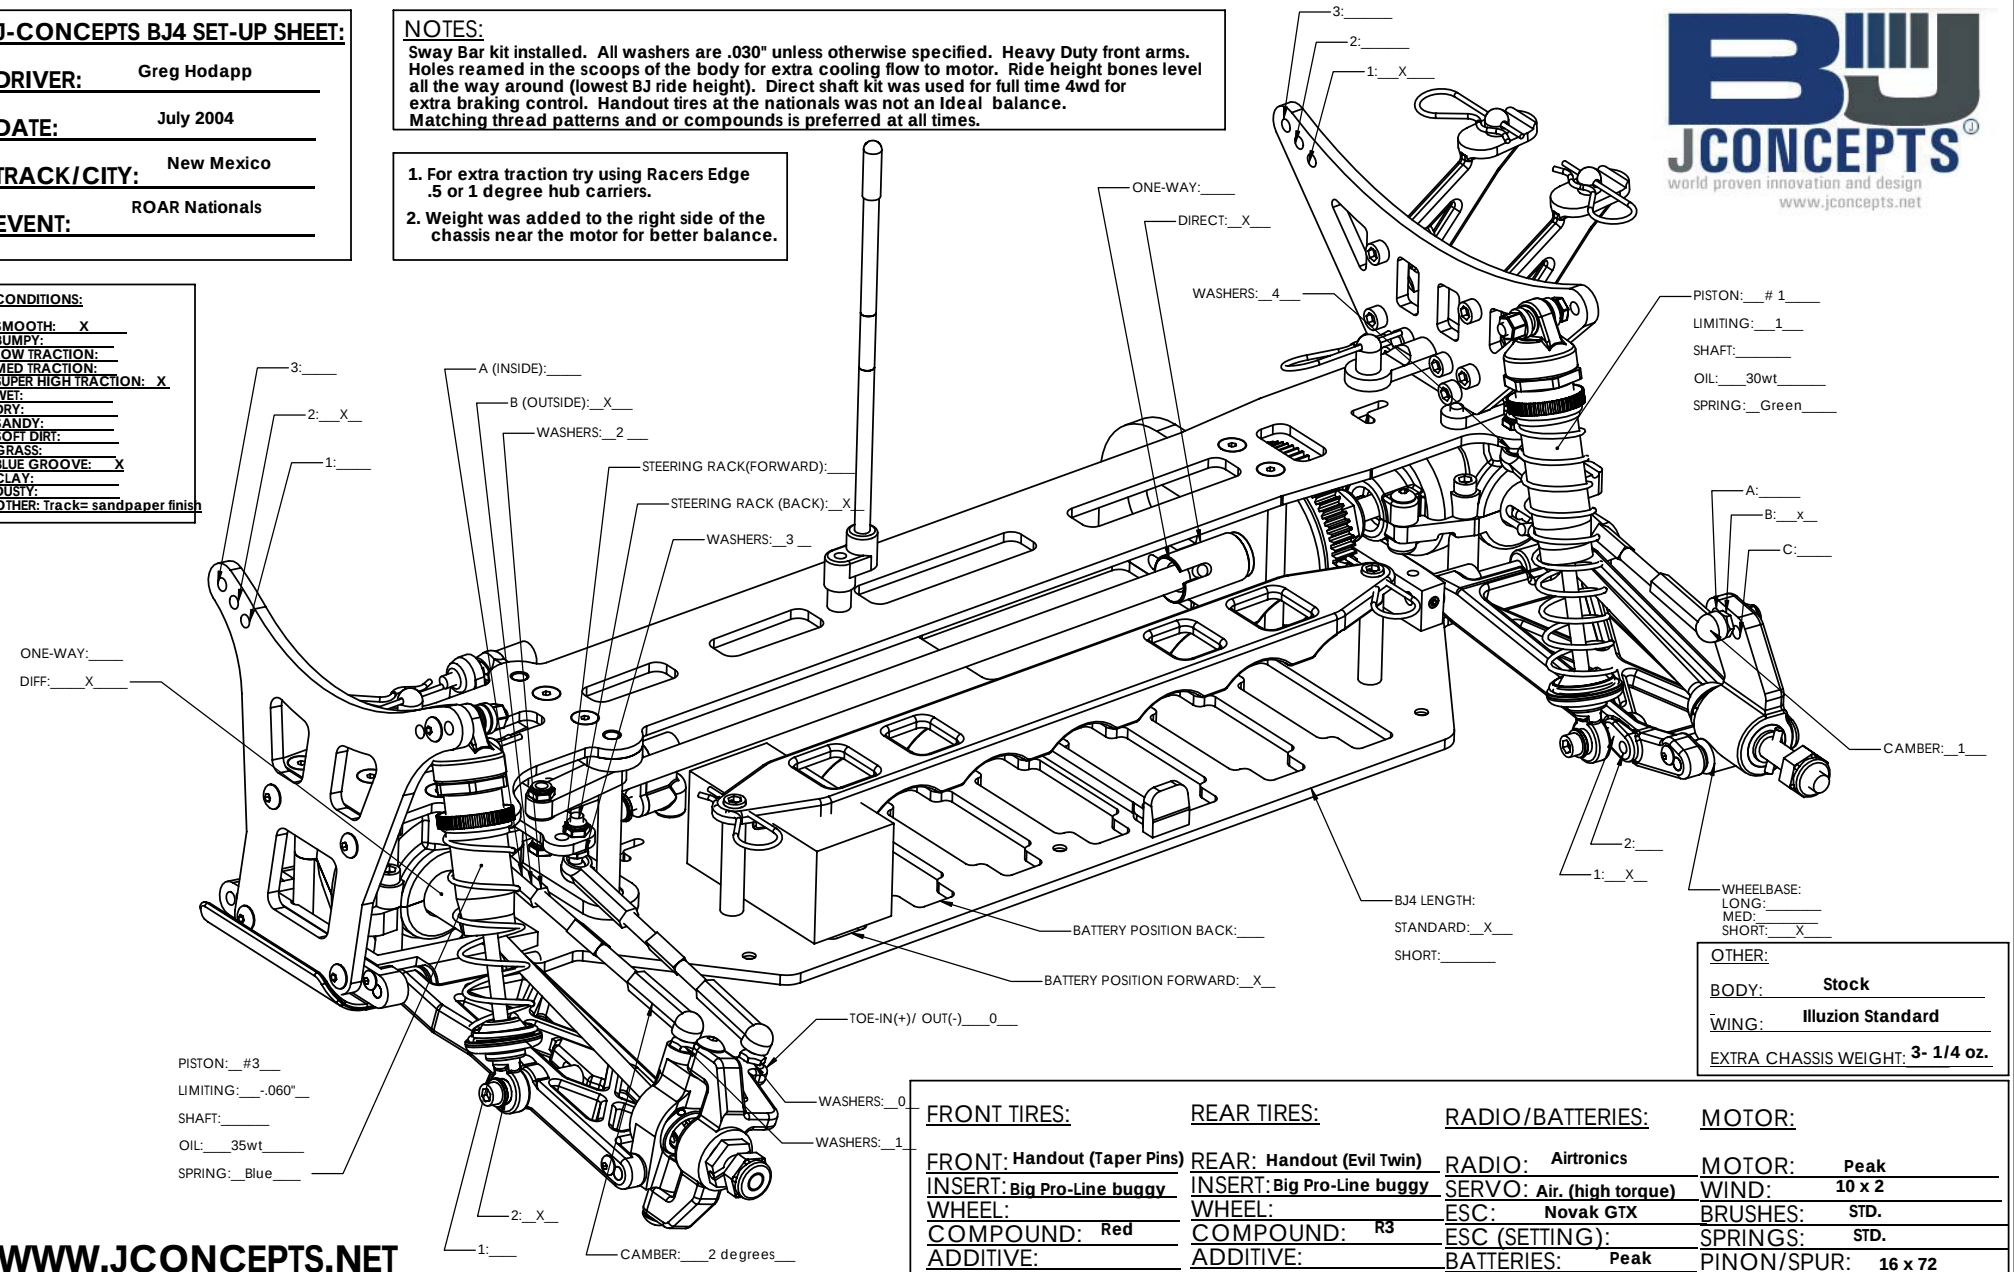

NOTES:

Sway Bar kit installed. All washers are .030" unless otherwise specified. Heavy Duty front arms. Holes reamed in the scoops of the body for extra cooling flow to motor. Ride height bones level all the way around (lowest BJ ride height). Direct shaft kit was used for full time 4wd for extra braking control. Handout tires at the nationals was not an Ideal balance. Matching thread patterns and or compounds is preferred at all times.

1. **For extra traction try using Racers Edge .5 or 1 degree hub carriers.**
2. **Weight was added to the right side of the chassis near the motor for better balance.**
